### Inspection Notes

Notes: Remind all employees to wash their hands before putting on gloves and immediately after taking gloves off.

Re-tie the drain tube from the small ice bin in the front so that the end of the tube is located above the drain funnel. This is required so that if there is a drain backup, the waste doesn't siphon back up the tube and into the ice bin.

Have the ingredient list available for the bagels and the donuts upon customer request. Place a sign stating that ingredient list is available.
